Peer Tutoring

AT JEFFERSON COLLEGE

Who should get peer tutoring?

Students who have trouble understanding the subject.

If you have taken the class before and were unsuccessful.

Students who do not feel confident in their study habits and skills.

If you have difficulty with a subject, get a tutor at the beginning of the semester.

Why it works!

Tutors help students develop and improve their study skills, learning strategies, and self confidence.

Peer tutors have recently taken the course and can help you through the learning process.

Tutors "speak the same" language and can connect with you.

Jefferson College provides one hour of **FREE tutoring** each week per class!

Sign up is easy!

Request a tutor by submitting an online request form.

Note: Students with documented disabilities or students in Project Success may request additional tutoring hours
