

Jefferson College Bi-Level Nursing Program

Clinical Requirements & Immunization Checklist

Clinical Coordinator: Maggie Rola, (636) 481-3446 or mrola@jeffco.edu

All requirements will be uploaded into Viewpoint Screening, the online platform for clinical compliance tracking. Students will be enrolled in Viewpoint Screening during orientation.

Urine Drug Screen: This may be completed at any LabCorp center in the area.

- Upon enrollment in the Viewpoint Screening platform, you will receive an email with instructions on how to complete your urine drug screening.
- The screening can be completed at any [LabCorp location](#)
 - The results will be uploaded directly to your Viewpoint Screening account.
- The deadline for completion of your drug screening is: *****

Physical Examination: Provide documentation of completed medical history and examination form signed by a medical professional. Forms are provided in your orientation packet and available in Viewpoint Screening.

BLS-CPR: Provide a current [American Heart Association \(AHA\)](#) – Basic Life Support for Healthcare Providers – Adult, Child & Infant CPR Certification with AED training.

Locations for AHA-BLS course are below.

- Jefferson College Workforce Development and Employment Services
 - To schedule a BLS course: contact Lore Robart at 636-481-3144
 - Class dates/time: class information can be found in your orientation packet.
 - Eight (8) seats are available for each session.
 - Course cost: \$85 per student
 - Location: Hillsboro campus, Career Technical Education Building, #166
- American Heart Association “Find a Course:” <https://cpr.heart.org/en/course-catalog-search>

Tetanus, Diphtheria, and Pertussis (Tdap): Provide documentation of **one Tdap vaccination** administered within the last 10 years.

Varicella (Chicken Pox): Provide documentation of **two doses** of varicella vaccine at least 4 weeks apart, **or** titer showing immunity.

Jefferson College Bi-Level Nursing Program

Clinical Requirements & Immunization Checklist

Hepatitis B Series: Provide documentation of **3 vaccinations** or titer showing immunity. This is a 3-vaccine series that will take a total of 6 months to complete. The first vaccine must be initiated by the set due date. The remainder of the series may be completed while in program, and clinical may be attended if series in process.

Measles, Mumps, and Rubella (MMR): Provide documentation of **two doses** of MMR vaccine at least 4 weeks apart, **or** titer showing immunity to all three components: Measles, Mumps, and Rubella. All three components must be listed on the titer to be considered fully immune.

Tuberculosis (TB): Documentation of any of the following is acceptable:

- Negative TB blood test (*ex. Quantiferon Gold, T-Spot, Interferon Gamma Release Assay-IGRA*)
- Two consecutive annual One-step TB skin tests (PPD) with negative results. Annual one steps must be 6-12 months apart.
- Negative Two-step TB skin test (PPD) (total of 4 visits-*see example below*)
- Negative chest x-ray must be documented if blood or skin test are positive. Chest x-rays are good for two years.

Example of two-step TB skin test (PPD):

First visit: PPD #1 administered on June 2

Second visit: PPD #1 read on June 4
--

The second PPD must be completed at least 7 days after the first PPD but no more than 21 days after the first PPD.

Third visit: PPD #2 administered on June 16
--

Fourth visit: PPD #2 read on June 18

Flu Vaccination: Provide documentation of flu shot administered during the **current** flu season. This can be completed once flu shots are available to the public.

Covid Vaccination: Provide documentation of Covid vaccination dose and/or completed series. Medical and/or religious exemptions may be available after acceptance into the nursing program. The exemption process will be discussed at nursing student orientation.
