Course Description:

De-Escalation: This course provides a real-world approach to communicating tactfully, which will allow you to reduce liability, promote a professional image, build a rapport, and even save lives. The course is a necessity for any agency looking to expand on the ever-changing expectations of communication, and strategies from this course will provide you with an effective blueprint to solve situations before they erupt.

Racial Profiling / Implicit, Unlawful, or Improper Bias in Public Safety: Racial and bias based profiling is a challenge facing many communities across the country. In addition to targeting racial groups, racial and bias profiling also affects a broad range of sub-cultures, including gender based, religious, physically and mentally challenged, and prior military service issues. Not only is racial and bias based profiling humiliating and degrading for the people subjected to it, it is unconstitutional, and an ineffective law enforcement practice.
