Jefferson College and Missouri State University 2+2 Agreement Expands Transfer Education Pathways

Missouri State
UNIVERSITY

Jefferson College

In an effort to simplify transferability for Jefferson College graduates, earning a bachelor's degree from Missouri State University just got easier thanks to a new 2+2 articulation agreement that was recently established between the two institutions.

Jefferson College President Dr. Dena McCaffrey and Missouri State Provost Dr. Frank Einhellig signed the agreement during a recent visit to the Hillsboro campus.

With this agreement, the two institutions will develop transfer plans for all Jefferson College students who want to complete their degrees at Missouri State – either online or on the Springfield campus.

“Since the beginning of the pandemic, students have experienced new challenges in their journey to degree completion. As an institution of higher learning, it is our mission and responsibility to deliver quality learning opportunities that empower students to reach their goals,” McCaffrey said.

These plans, often referred to as 2+2 plans, create a clear pathway and ensure students meet necessary program requirements. Students will be assured of course transferability for all programs through this new articulation agreement.

“This new agreement creates a flexible pathway that remove barriers to academic success,” McCaffrey said. “On behalf of Jefferson College, I am excited to provide our graduates the opportunity to complete their bachelor's degree online with Missouri State University.”

Ultimately, these 2+2 plans save students time and money, noted Dr. Joye Norris, associate provost for access and outreach at Missouri State.

NHRA Racing Champ Steve Torrence Acknowledges Welding Program During Victory in St. Louis

As an extension of a unique learning experience and friendship with Jefferson College Welding Professor Joe Candella and his students, NHRA Top Fuel Champ Steve Torrence acknowledged the Welding program during a recent post-race interview in St. Louis where he won the Top Fuel category at the NHRA Midwest Nationals held at World Wide Technology Raceway.

Following a Facebook Live event last spring, where Torrence thanked the students who had fabricated a custom fire pit in his honor during last year's race, he subsequently invited Candella and a few students to Texas this past summer for a one-of-a-kind learning experience with his family-owned pipeline welding company CAPCO Contractors.

During the lead up to this year's race in St. Louis, Torrence took time to visit with Candella's class and take some photos.

Jefferson College is extremely grateful to Steve and the entire CAPCO Contractors team for making this unique service learning experience possible. "I can't say enough about how well Steve has treated us," Candella said. "It is an experience the students and I will remember for a very long time!"
