

Facilities – Hillsboro Campus

The **Library-Administration Building**, The original 1966 two-story Library Building reopened in March 2018 after a complete renovation. The new Library space has a collection of over 75,000 items, 75 student PCS, individual and group study spaces, abundant natural and LED lighting, expert

assistance with research, and houses the **Center for Teaching and Learning**. The main entrances for the Library are on the northeast and west sides of the building. The entrance to the renovated and expanded is located on the southeast side of the Library Building. The Administration side has offices for the President, Institutional Advancement, Public Relations and Marketing, Human Resources, and the Business Office.

The sprawling **Career & Technical Education Building** contains 75,246 square feet of classrooms, offices, and laboratories, as well as Adult Education and Literary services. Equipment representing the latest advancements in technology is available to students.

The **Field House** complex provides facilities for physical education and intercollegiate sports, including an indoor pool. The building is also used for cultural and social programs throughout the year.

Music, theatre, and art find their home in the **Fine Arts Building**. The building offers classrooms, practice space for the music department, art studios, dedicated computer labs, and a gallery for displays by residents and visiting artists. The Fine Arts Theatre hosts concerts, plays, meetings, and festivals for both Jefferson College and for the community.

The **Technology Center**, a 43,000 square foot, three-level structure featuring a center atrium design, houses state-of-the-art facilities, the Academic Success Center, Disability Support Services, and equipment for several high-tech programs.

The majority of liberal arts classes are held in the **Arts and Sciences I Building**. Comfortable, well-lighted classrooms and fully-equipped science and language laboratories are located there as well as a student lounge. Lecture halls accommodate larger groups, and the intimate Little Theatre is often used for studio theatre productions, musical programs, films, and lectures.

Arts and Sciences II includes a computer laboratory, JCTV studios, general purpose classrooms, faculty offices, and a student lounge.

When students attend classes, their second home is the **Student Center**.

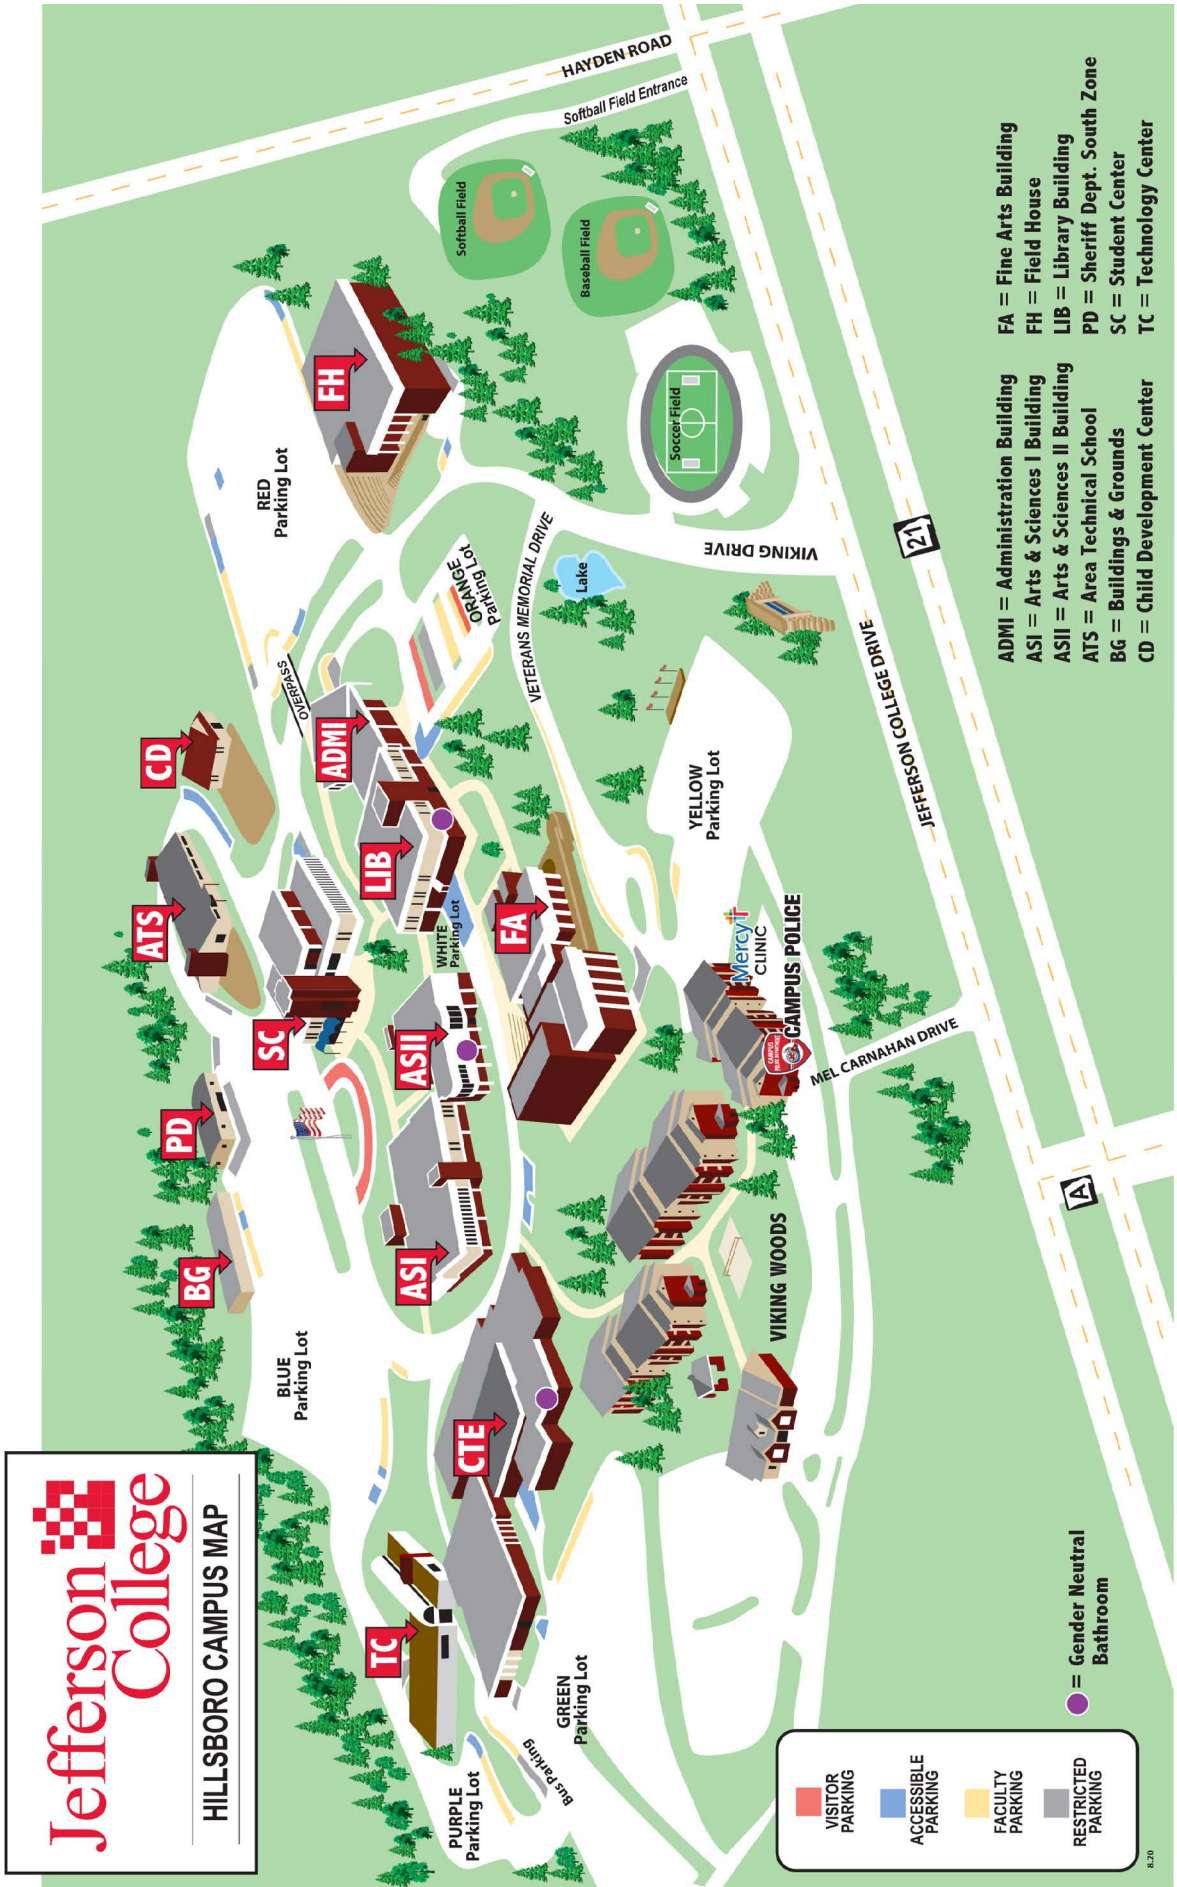

From registration to Commencement, Student Services provides educational information and guidance on everything from financial aid to career choices. The main floor is the “one stop shop” for student needs and the Missouri Baptist University transfer office. The Cafeteria provides great food and refreshments, a giant screen TV, wireless Internet, and plenty of room for socializing. The Cafeteria is located on Level I with the Viking Room and the College **Bookstore**. This floor also houses the Vikings’ Vault food pantry for students. The top floor of the building is occupied by Student Development and Project SUCCESS. Student Senate also has an office on the top floor.

Many of the high school students enrolled in the **Area Technical School** at the College attend classes in the Area Technical School Building. The Area Technical School Building, completed in the summer of 1999, consists of 32,709 square feet

on two levels and includes classrooms, laboratories, and offices for several technical programs available to area high school students enrolled through 11 public high schools in Jefferson College’s service area.
